PROFESSIONAL SUMMARY

Full stack developer with 2+ years of hands-on experience on a real-estate CRM. At RSoft Technologies, I work on reporting and everyday CRM workflows used by sales and marketing teams. My work spans Laravel and SQL on the backend, and React with TypeScript on the frontend. I am most comfortable taking a feature from the business requirement through implementation, testing, and release.

TECHNICAL SKILLS

Backend: PHP 8, Laravel 10-12, REST APIs, JWT authentication, Eloquent ORM, Livewire, queues, scheduler, cron jobs

Frontend: React 19, TypeScript, JavaScript, Vite, Tailwind CSS, TanStack Query, React Hook Form, Zod, Chart.js

Data and tools: MySQL, PostgreSQL, schema design, indexing, query optimization, EXPLAIN, Git, GitHub, Postman, Docker, Playwright, ESLint, Prettier

PROFESSIONAL EXPERIENCE

Software Developer (Full Stack) | RSoft Technologies Pvt Ltd | Jun 2024 - Present

Enterprise CRM product for the real-estate domain

- Develop and maintain the Advanced Reports module, including detail, summary, and matrix reports with grouping, aggregates, filters, saved views, and relative date ranges.
- Added charts, drill-down views, and dashboard widgets so sales teams can review report data without exporting it first.
- Built scheduled report delivery by email and WhatsApp, plus Excel, CSV, and PDF exports. Used chunked and streamed queries to keep large exports stable.
- Improved slow reporting queries by reviewing execution plans, adding composite indexes, and reducing unnecessary relationship loading.
- Implemented Call Block permissions across profile settings, module privileges, and leads, so call actions follow each user's access level.
- Created Playwright end-to-end checks for login, privilege setup, and permission-based Lead actions; also contributed to Google Maps, unit inventory, and the React/Laravel CRM rebuild.

SELECTED PROJECTS

Advanced Report Builder | Laravel 12, React 19, TypeScript, PostgreSQL

Personal reporting-engine project. I am building a report definition to SQL workflow with live previews, charts, report sharing, scheduled delivery, and CSV, Excel, and PDF exports.

Modern CRM | React 19, TypeScript, Laravel, JWT

Personal CRM project with a kanban lead pipeline, customer records, follow-up queues, analytics, role-based access, and automated feature tests.

EDUCATION

MCA, Distinction | Kongu Arts and Science College, Bharathiar University | 2024
